SUPERINTENDENT'S REPORT OF THE WATER AND SEWER WORKS

To the Water and Sewer Works Commissioners and Citizens of Hinsdale.

I herewith submit the following as my first report as Superintendent of the Water and Sewer Works.

After a very careful series of tests the State Board of Health approved the water in the new system, during the month of November, and a large number of service connections were turned on at that time. Water rents were collected from December 1, 1935, for a four months' period ending April 1, 1936, when rents for the next quarter will be due.

At present there are eighty-four (84) service pipes open, supplying water to one hundred and twenty-one (121) customers.

Where the Sewer is available, with a few exceptions, these various properties are connected with the Sewer system. Thus far the cost of Sewer maintenance has been very little, and under normal conditions this should continue to be the case.

Property owners wishing to connect with the Water or Sewer, or both, must notify the Superintendent in order that he may inspect the connection before they are covered.

Officials of the State Board of Health inform us that we have one of the best water systems in the State. They are co-operating with us fully, and have made frequent tests of the water, from specimens taken from various places around the town, to insure its purity. The Purification Plant has all the improved equipment for supplying pure water.

The quantity of water used during December, the first full

month the system was in operation, was 837,300 gallons, or a little more than 27,000 gallons per day. In January the consumption increased to 1,027,300 gallons, or some over 33,000 gallons per day, as more connections were made.

The stand pipe, with a capacity of 250,000 gallons, is kept full at all times, and this supply of filtered water is available for fire protection. In addition to this, the reservoir at the Purification Plant holds some over 500,000 gallons of raw, or unfiltered water, which is immediately available in case of a serious fire. These supplies are further supported by the Kilburn Reservoir with a capacity of more than 70,000,000 gallons.

As a matter of interest, our records show that approximately 40,000 gallons of water were used at the fire in Mrs. Golden's tenement on Sunday afternoon, February 9.

At the close of the fiscal year on January 31, 1936, the following material and supplies were on hand:

Pipe line supplies, pipe, fittings, hydrants, etc.	$393 47
3,950 lbs. of Soda Ash	63 83
3,450 lbs. of Alum	53 48
315 lbs. of Activated Carbon	20 16
457 gals. of Fuel Oil	31 99
Total	$562 93

The public is cordially invited to inspect the Purification Plant. It is operated several hours every day, during which time visitors are welcome.

Respectfully submitted,

CHAS. W. HARRIS,
Superintendent.

HINSDALE FIRE DEPARTMENT

Report of Engineers

The Board of Engineers submit the following report.

There have been nine general alarms and thirty-six still alarms during the past year.

February	15	1935	Clarence D. Fay's house. Partial loss.
April	25	1935	Auto at Dodge's Garage. False alarm.
September	5	1935	Hinsdale Paper Mfg. Co. Slight loss.
September	7	1935	Lasher Place. Total loss.
October	10	1935	Pelis Road-Stand. Total loss.
November	9	1935	Hinsdale Paper Mfg. Co. Total loss of the middle section.
November	11	1935	High School Annex. Small loss.
November	18	1935	James McCormick's house. Slight loss.
December	27	1935	Bushey's Garage. Slight loss.

At this time I wish to inform the townspeople that Chief Henry Whitney of Brattleboro and his assistants did not ask pay for their services at the time of the Hinsdale Paper Mfg. Co. fire on November 9, 1935 and the Board of Engineers and I thank them for this gift.

We recommend a new apparatus.

Respectfully submitted,

CLARENCE D. FAY, Chief.

H. J. Delphy, 1st Ass't Engineer.
R. L. Howe, 2nd Ass't Engineer.
F. J. Young, 3rd Ass't Engineer.
F. W. Walker, 4th Ass't Engineer.

HINSDALE BRANCH A. R. C.

Report of the Chairman of the Nursing Committee

Dr. J. Harvey Grimes of Hillsboro assisted by the nurse, Miss Eva M. Fortier, conducted a dental clinic for the third year in June, 1935. The children are showing much benefit from these clinics.

As the result of lessons given by the nurse to a class of firemen, seven finished the course, and received a certificate from the American National Red Cross for the Standard course of instruction in First Aid to the injured.

We were very much pleased with the Roll Call enrollment.

Respectfully submitted,

EVA N. FAY.

Our circulation of fiction has decreased this year. Some authorities say this is due to the fact that the depression is over and if so we are glad. One American Library official attributes the drop in circulation to the large amount of knitting being accomplished by the ladies, so we hope this fad passes. However, we have a fine collection of knitting books, as well as books on many other hobbies, and are always glad to help you with yours.

Our two remaining Liberty bonds, given by a former member of the library committee, were called in. With one we purchased fifteen new chairs for the reading room and the old chairs were sold to the Water and Sewer Department. The money from the other bond was placed in a savings bank. The appearance of the library is much improved by the new chairs and if the walls could be refinished or cleaned, we would have nothing for which to apologize.

It is becoming harder each year to meet the demands of the

schools for two reasons—the children require more material and the income from the trust funds grows smaller each year. We give the best service possible and the cooperation from the teachers is perfect. The North Hinsdale school bus calls at least once a week and the children get their school books as well as many for their parents and we hope this service is continued.

A book club was conducted this summer, but owing to the noise and dust from the construction work being done outside, most of the meetings were held near swimming holes and lunches were consumed rather than books.

We have exchanged books with Brattleboro and Winchester and have borrowed from the Library Commission and the State Library. Books are being loaned to the Farm Bureau and those waiting for these books can get them at the library.

We were sorry to lose Miss Roberts, who has helped in the library for ten years. The National Youth Administration has asked if we could use young people in the library and we have written that we could, but have heard nothing more as yet.

HEADMASTER'S REPORT

Hinsdale, N. H.,
February 4, 1936.

Wesley H. Douglass, Superintendent of Schools:

The High School Building statistics:

Grade	VI	VII	VIII	IX	X	XI	XII
Enrollment	24	34	35	39	32	17	15

Graduated Class of 1935

Post Secondary Institutions entered by graduates:

N. H. University	1
Keene Normal School	1
Plymouth Normal School	1
Cooley Dickinson Hospital	1
Northampton Commercial College	1

It is of interest to note that the size of our graduating classes is tending to decrease and the size of the entering freshman classes is increasing. Over half of the pupils entering our high school are not finding enough to warrant their remaining in the school. These people are to become the citizens of the town and surely lack a great deal of background when the school fails to hold them after the tenth year.

Specifically, we lack:

I. Adequate study hall conditions—people cannot study in classrooms.

II. A school library, reference books, and a place to use them.

III. A curriculum for boys that will train for something besides business and classics—a vocational course consisting of ap-

plied carpentry, mechanics, molding, engineering, drafting, and construction, practical chemistry and physics; subjects which build up in the boy a respect for personal achievement and pride in a job well done.

IV. An auditorium and gymnasium which would give the school a chance to function as a physical and oratorical factor. Many people have long forgotten their Latin declensions or their geometric theorems, but the ability to speak in public and be a gentleman in a game are two very practical factors in their lives today. An auditorium would enable the school to produce and control music, dramatics, oratory and social functions. A gymnasium to facilitate athletic ability, gymnastics and to better the physical and mental health of our children.

It is impossible to seat one hundred and seventy-one children in the eighty stationary seats in the main room at present. This eliminates all complete school assemblies wherein a speaker may talk to the group.

There is no stage and the facilities of the Town Hall are limited to four functions per year which cuts dramatics to an irreducible minimum. During the winter months no organized form of athletics are available and our young people roam the streets. Social meetings are impossible in the high school building because of inadequate space. Half a dozen organized rhythmic gymnastics by a group of ninety pupils in the main room would start the tenons of the floor timbers.

We need a complete new set of school buildings and we need them very soon if the school is to serve the community in any possible degree of efficiency. Every high school boy on a job does two things, both bad. First, he throws a family breadwinner out of a job; and second, in leaving a good school system, he loses an opportunity to learn the finer points of good citizenship for which the school must exist.

The boys and girls who most need the effect of the social influence of the school are those that we lose the earliest because

of lack of physical facilities and adequate courses for this type. In the matter of crime prevention, leadership and facilities for directing the interests of the youth of our town are two prime factors. It is financially cheaper to keep any individual out of jail, through environment and guidance, than it is to keep him in jail and try to reform him.

Everything applied to the high school in this report may be equally well or better applied to the Bridge Street School.

Sincerely,

CLEON B. JOHNSON,
Headmaster.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Hinsdale:

I have the honor to submit, herewith, my eleventh annual report.

Buildings and Grounds: During the summer of 1935 only the usual minor and necessary repairs were made in all the buildings, such as general cleaning, painting and varnishing where needed. Both of the village schools have been connected with the new water and sewer systems. These public utilities will add immeasurably to the general health, comfort and protection of the community all through the years.

It may be well to note here the fire in the High School building on the night of November 11, 1935. Owing to its early discovery, no very serious damage resulted save smoke and water. Due to the foresight and enterprise of the School Board, school went on as usual on November 12. As a result of the fire, new fire alarm signals have been installed in both of the central buildings and exits have been provided for the blind toilet rooms in both buildings.

For years I have been calling your attention to the need of an adequate school plant worthy of your children. I know of no finer children anywhere. They deserve to have for their school home a modern plant with adequate sanitary facilities, spacious playgrounds, auditorium, gymnasium, school library, with classrooms especially equipped for the varied activities of a modern educational program. I have confidence to believe that some day the citizens of Hinsdale will become convinced of this pressing need and in their characteristic way will provide for its children

an educational plant that will compare favorably with any town of its size.

Teachers and Pupils: The following changes are to be noted in the teaching staff: Miss Margaret Coll, who had been given a leave of absence, returned to her work in September. Miss Mary Ryan of Manchester, New Hampshire, a graduate of Plymouth Normal School, who had acted as substitute for Miss Coll, was assigned to the Plains School. At the High School, both Miss Estelle Pray, teacher of Home Economics, and Miss Katherine Flynn, teacher of Commerce, resigned to accept more lucrative positions elsewhere. As teacher of Home Economics, the Board elected Miss Dorothy Emery of Englewood, New Jersey, University of Vermont, B.S. 1931, A.M. 1935. Miss Emery has had experience in institutional work and has done research work for the federal government. To fill the vacancy in the Commercial Department, Miss Dorothy Ephlin of Ashland, New Hampshire, a graduate of Plymouth Normal, with graduate work at Cornell University, was elected by the Board. Miss Ephlin came to us after two years' experience at Sunapee.

The work done is well up to approved standards. There seems to be a spirit of harmony and cooperation all along the line which adds much to the pleasure, as well as effectiveness, of the work. For this spirit of harmony and cooperation, I am personally grateful to the School Board and citizens of Hinsdale, to the teachers and pupils, one and all.

Respectfully submitted,

WESLEY H. DOUGLASS,
Superintendent of Schools.

WALTER S. KIMBALL,
Town Clerk.

The public school is the positive and definite measure of a community's awareness of parental and civic responsibility and obligation. Let us build for our children school homes that are clean and safe, symbols of our hopes for them and our faith in the future of the community. The investment made in school buildings is returned many fold in human dividends, for the personality of children reflects the refinement with which it is surrounded. The school lifts the level of mankind's ideals through the wholesome physical environment it provides as well as through its rich intellectual and spiritual life. Fortunate is the child who can have daily contact with good taste in his school home. Order, quiet, beauty, good equipment, play space, work rooms, gardens, safety, fresh air, abundant light, and cleanliness are as important for the school home as for the parental home. The beauty of the modern school is not achieved by extravagant ornamentation. Careful planning may produce architectural balance, grace and symmetry in outline, harmony in color, strength and dignity of material with an economy that is consistent with the ideals of thrift and simplicity of living which it is the purpose of education to instil.

JOY ELMER MORGAN.
